From your **smartphone** *find the keys or what matters most*

You can **find anything** with a push of a button

From your **key tracker** *find your smartphone*

1-Range up to 75 feet.

Thank you for purchasing the Wireless Key Tracker 4PK!

These handy dandy devices can attach to almost any of your personal possessions and ensure you to track from an APP on your phone.

Set the APP to alarm if the Key Tracker leaves the 75FT range if attached to items like keys to ensure you don't loose them!

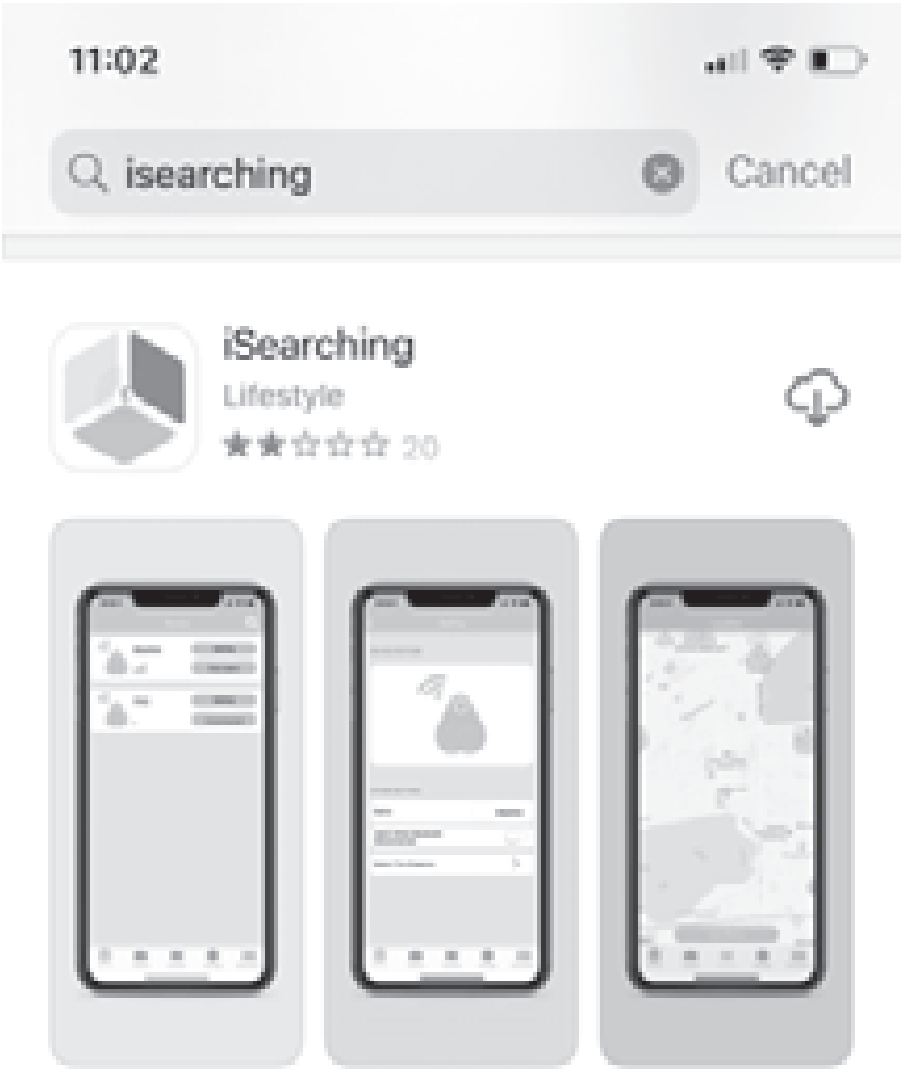

You can also use the APP to have the Key Tracker BEEP if it is attached to a item like a suitcase that you are trying to locate within the 75 FT range.

Connection & Pairing Instructions:

Note: In the APP under Description there are also detailed instructions.

1) Download the APP “iSearching” from the APP Store or Google Play Store or Scan the QR Code.

2) Remove the clear battery contact prevention tab from the Key Tracker to activate the battery.

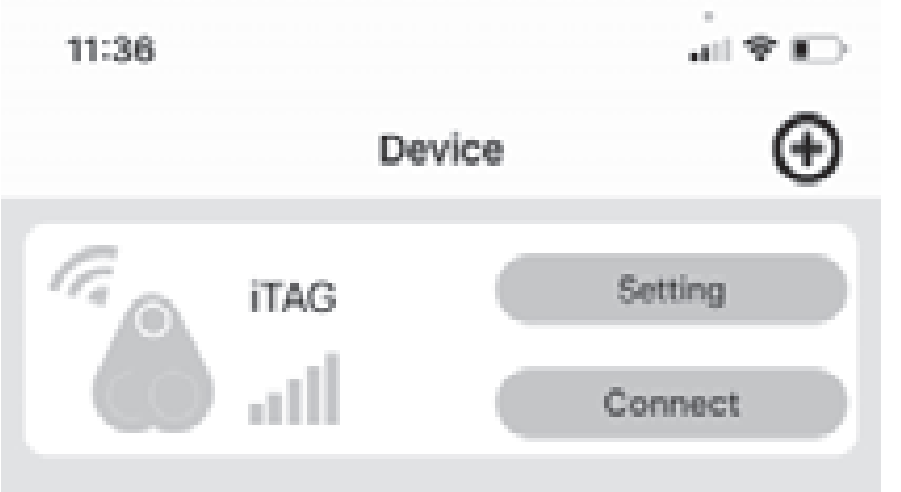

3) Press and hold down the button for 3 seconds until you hear it beep twice to turn ON the unit.

4) Open the APP and make sure you are in “Device” which is the mode that will appear when opening the APP.

5) You will see the screen below where you can now pair the iTag to your phone. Press connect on the APP to pair the iTag to your phone. Press the “Click Alarm” to test and confirm it is paired.

6) If you want to add another iTag you can follow the same steps as above and press the + sign in the right hand corner of the APP.

7) Using the Key Tracker as a Wireless Remote Selfie Shutter: Select “Camera” on the bottom row of the mentioned options. Make sure you are still paired and then press the button on the Key Tracker to take a picture from your phone.

Wireless Key Tracker uses Lithium CR 2032 (included)
