

SAFETY DATA SHEET (SDS)

Section 1. Identification		
Product identifier	XTRAFLAME FIREWOOD	
Other means of identification	None	
Recommended use and restrictions on use	WOOD FOR HEATING	
Initial supplier identifier	Gaston Charbonneau Floral Ltée, 500, rue Principale, Laval, Qc, 450-689-0246	
Emergency telephone number/restriction on use	Canada – 450-689-0246 9h-17h	
Section 2. Hazard identification		
Classification of hazardous product (name of the category or subcategory of the hazard class)		
Not Regulated		
Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)		
None		
Other hazards known	Thermal burn hazard – contact with hot substance may cause thermal burns.	
Section 3. Composition/information on ingredients		
Chemical name (common name/synonyms)	CAS number or other	Concentration (%)*
None	---	---
* Statement - This safety data sheet provides concentration range(s) instead of the actual concentration(s) by weight (except for gases/propellants by volume) considered trade secret(s).		
Section 4. First-aid measures		
Inhalation	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a doctor if you feel unwell.	
Ingestion	IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if victim is rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration.	
Skin contact	IF ON SKIN: Wash with plenty of water. (10-15 minutes)	
Eye contact	IF IN EYES, Rinse cautiously with water for several minutes. (10-15 minutes)	
Most important symptoms and effects (acute or delayed)	May cause thermal burns.	
Indication of immediate medical attention/special treatment	In all cases, call a doctor. Do not forget this document.	
Section 5. Fire-fighting measures		
Specific hazards of the hazardous product (hazardous combustion products)		
Carbon oxides and other irritant/toxic gases and fumes.		
Suitable and unsuitable extinguishing media		
In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish surrounding products.		
Special protective equipment and precautions for fire-fighters		
During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans. Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.		
Section 6. Accidental release measures		
Personal precautions, protective equipment and emergency procedures		
Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).		
Methods and materials for containment and cleaning up		
Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.		
Section 7. Handling and storage		
Precautions for safe handling		
Wear gloves/protective clothing/eye protection/face protection. Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.		
Conditions for safe storage, including any incompatibilities		
Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.		

Section 8. Exposure controls/Personal protection									
Control parameters (biological limit values or exposure limit values and source of those values)									
Exposure limits: None									
Appropriate engineering controls									
Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.									
Individual protection measures/personal protective equipment									
Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.									
Section 9. Physical and chemical properties									
Physical state		Solid			pH	Not available			
Colour	Natural				Kinematic viscosity		Not available		
Odour	Characteristic				Solubility		Insoluble		
Melting/freezing point		Not available			Partition coefficient - n-octanol/water (log)			Not available	
Initial boiling point/ initial/range		Not available			Vapour pressure		Not available		
Flammability	Combustible solid at high temperature				Density/relative density		Not available		
Upper and lower flammability/explosive limits		Not available			Relative vapour density		Not available		
Flash point	Not available				Particle characteristics		Not available		
Auto-ignition temperature		Not available			VOC	Not available			
Decomposition temperature		Not available			Other		None known		
Upper and lower flammability/explosive limits		Not available			Other		None known		
Section 10. Stability and reactivity									
Reactivity									
Does not react under the recommended storage and handling conditions prescribed.									
Chemical stability									
Stable under the recommended storage and handling conditions prescribed.									
Possibility of hazardous reactions									
None									
Conditions to avoid (static discharge, shock or vibration)									
None									
Incompatible materials									
None									
Hazardous decomposition products									
None known									
Section 11. Toxicological information									
Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)									
Contact with hot substance may cause thermal burns.									
Symptoms related to the physical, chemical and toxicological characteristics									
None									
Delayed and immediate effects (chronic effects from short-term and long-term exposure)									
Skin Sensitization – No data available; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available; Carcinogenicity – No ingredient listed according to IARC, ACGIH, NTP or OSHA; Reproductive Toxicity – No data available; Specific Target Organ Toxicity — Single Exposure – No data available; Specific Target Organ Toxicity — Repeated Exposure – No data available; Aspiration Hazard – No data available; Health Hazards Not Otherwise Classified – No data available.									
Numerical measures of toxicity (ATE; LD ₅₀ & LC ₅₀)									
None									
ATE not available in this document.									
Section 12. Ecological information									
Ecotoxicity (aquatic and terrestrial information)									
No data available for this product.									
Persistence and degradability		No data available							
Bioaccumulative potential		No data available							
Mobility in soil		No data available							
Other adverse effects		No data available							
Section 13. Disposal considerations									
Information on safe handling for disposal/methods of disposal/contaminated packaging									
Dispose of contents/container into safe container in accordance with local, regional or national regulations.									

Section 14. Transport information	
UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG/49 CFR Regulations	
NOT REGULATED	
UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)	
NOT REGULATED	
UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)	
NOT REGULATED	
Special precautions (transport/conveyance)	None
Environmental hazards (IMDG or other)	None
Section 15. Regulatory information	
Safety/health Canadian regulations specifics	Refer to Section 2 for the appropriate classification. This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR).
Environmental Canadian regulations specifics	Refer to Section 3 for ingredient(s) of the DSL
Safety/health/environmental outside regulations specifics	
None	
Section 16. Other information	
Date of the latest revision of the safety data sheet	December 20, 2023 version 1 (NSS ENTREPRISE INC.)
Corrections	New Template
